## **There is no democratic justice in Japanese court of justice!**

We denounce the Japanese government, which repeats the history of colonial rules and imperialistic rules! On August 27, the Supreme Court made an unfair decision on the plaintiffs' defeat in the Korean high school on application of "free tuition fee" to them. The Korean plaintiffs, their parents, and the Japanese civil society supporting them, held an emergency press conference and protest meeting on August 30 in front of the Ministry of Education, Culture, Sports, Science and Technology, and about 600 people participated. The Japanese government has also excluded Korean kindergartens from the preferential policy on childcare just being introduced since October 1. (Photo by TANUMA Hisao)

### **Front Line of Class Struggle**

The intervention in Venezuela launched by the imperialists consists of military - industrial complex, international financial capital and bourgeois mass-media led by the United States. It has not been stopped till now, in the end of March, 2019. The

military, financial and political suppression against Venezuelan people as well as the subversive maneuvers have been getting harsher.

But Maduro administration, which succeeded "Bolivarian Revolution" embarked by Hugo Chavez, the former president in 1999 and backed

up by the people supporting anti-imperialist, anti-US and anti-neoliberalist policy has been defending the revolution and carrying out the brave struggle against those "sanctions."

All of the following military interventionist maneuvers that the United States has carried out have failed.
